## DIAMOND REPORT

This report is a statement of the diamond's identity and grade including all relevant information.

|  | NUMBER 196500006  | MUMBAI, January 15, 2016 |   |   |                                   |             |                 |                |                |                |  |

|  | The gemological analysis of diamonds, precious who have a keen sense of the professional coor phenomenon. | de of ethics go          |   | as well as a the  | orough knowl                      | ledge of    | crystallog      | raphic, optico |                |                |  |

The identification of the various species and varieties of stones, the distinction between natural and synthetic material, as well as various treatment methods currently encountered are all very sensitive factors. More specifically for diamonds, the laws of refraction and dispersion of light, the related geometric data as well as knowledge of all aspects involved in the cutting process are essential.

This gemological report is provided upon request of the customer and/or the owner of the gem. By making this report I.G.I. does not agree to purchase or replace the article. Neither I.G.I. nor any member of its staff shall, at any time, be held responsible for any discrepancy which may result from the application of other grading methods. Neither the client nor any purchaser of the gem shall regard this Report as an appraisal nor as a guaranty or warranty.
